TELEHEALTH CONSENT FORM

I hereby authorize South Coast Psychiatry doctors and staff to use telehealth (telephone, email, text, and fax) in the course of my treatment. I understand that telehealth involves the communication of my medical information orally via phone, internet or other telehealth devices to myself, as well as, to other physicians and other health care practitioners located in other parts of the state or outside of the state. (only with patent's written consent)

I understand I have all the following rights with respect to telehealth:

Patient Choice of Care. I have the right to withhold or withdraw my consent to telehealth at any time without affecting my right to future care or treatment and without risking the loss of my health coverage.

Access to Information. I have the right to inspect all medical information transmitted during a telehealth consultation; and may receive copies of this information for a reasonable fee.

Confidentiality. I understand that the laws which protect the confidentiality of medical information apply to telehealth; and that no information or images from the telehealth interaction which identify me will be disclosed to researchers or other entities without my consent.

Potential Risks. I understand that there are risks from telehealth, including the possibility, despite reasonable and appropriate efforts, that: the transmission of medical information could be disrupted or distorted by technical failures in transmission; the transmission of medical information could be interrupted by unauthorized persons. In addition, I understand that telehealth examinations or care may not be as complete as face-to-face examinations or care and that telehealth does not negate or minimize the risks that may be inherent in a medical illness or condition.

Consequences. I understand that by consenting to telehealth my physician will communicate medical information concerning me to physicians and other health care practitioners located in other parts of the state or outside the state.

Initial _____

Telehealth? - Telehealth is similar to telemedicine but includes a wider variety of remote healthcare services beyond the doctor-patient relationship. It often involves services provided by nurses, pharmacists or social workers, for example, who help with patient health education, social support and medication adherence, and troubleshooting health issues for patients and their caregivers.
